

Kraków, March 10, 2022

The **Padre Foundation** is an organization that, in accordance with the implementation of its statutory goals, **supports individual people and families in housing, mental and professional crises.**

The Foundation leases a two-story building in the center of Kraków, at Kalwaryjska 42, which is currently being adapted for long and short-term lease. In the **current dramatic situation related to the war in Ukraine**, the management board of the Foundation decided to devote a significant part of the building to **activities related to helping refugees** – providing them with accommodation, psychological, social and legal support.

On the first floor, office space is planned for usage by psychologists, lawyers, social workers and career counselors, while on the second floor, apartments can be built to **accommodate approx. 15 people:**

- in the first wing, there are 2 rooms with a shared kitchen and 1 bathroom for 4-6 people;
- in the second wing, there are 4 rooms with a shared kitchen and 2 bathrooms for approx. 10 people.

This floor requires renovation, and all rooms need to be furnished with necessary equipment and devices, such as furniture, beds, kitchen utilities, bathroom, laundry equipment, etc.

We need to raise appropriate funds to achieve the goals above, which is why we are turning to people and institutions of goodwill for financial support.
